

SEASON-LONG WEED PREVENTER

for Lawns & Landscapes

5,000 sq. ft. #12360

15,000 sq. ft. #12361

Season-Long Weed Preventer contains Dimension® for season-long weed control protection. This product does not contain fertilizer.

Season-Long controls or suppresses many annual grasses and broadleaf weeds and can be used on over 100 ornamental plants.

Controls crabgrass before AND after it emerges - up to the third leaf stage.

ACTIVE INGREDIENT

dithiopyr: 3,5- pyridinedicarbothioic acid, 2-(difluoromethyl)-4-(2-methylpropyl)-6-(trifluoromethyl)-S,S-dimethyl ester ... 0.27%

TIPS FOR IMPROVED WEED CONTROL

- For best results, apply this product within a few days after mowing and delay mowing again for a few days after the application.
- The turf herbicide component in this product are not effective until activated by rainfall or irrigation. Performance is improved if application is followed by 1/2 inch of rainfall or sprinkler irrigation. Erratic weed control may result if not activated by rainfall or irrigation within 30 days after application.

- Controls crabgrass and many other listed annual grasses and broadleaf weeds
- Stops crabgrass even after germination
- Will control crabgrass if applied before it emerges and up to 4 weeks after it emerges
- **Does NOT contain fertilizer**
